

Voyager

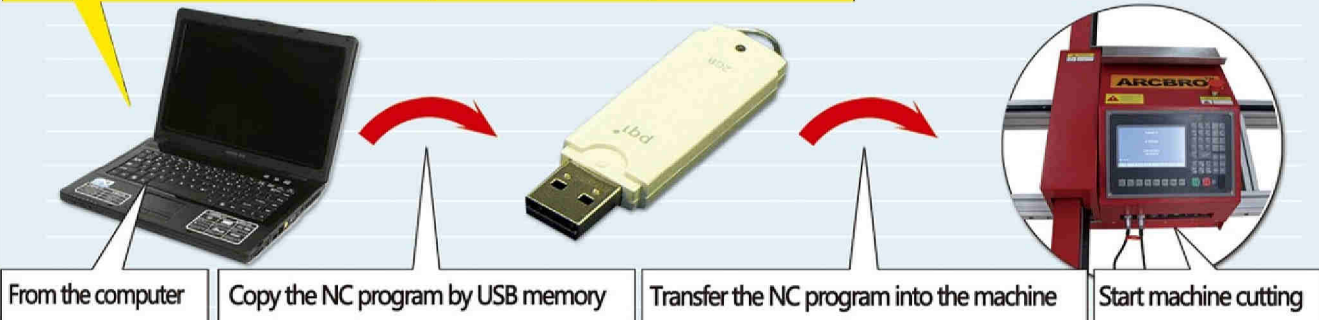

Portable CNC Cutting Machine - ARCBRO Voyager

Servo Optional! High Precise!!

The Milestone Of Portable CNC Cutter !!

Firstly, install the software on the PC, then convert DXF figure into NC code

Through USB Port ! Input and output the NC program simply.

After equipping with the air plasma power source, such as Hypertherm, Kjellberg, Thermadyne
ArcBro Portable CNC cutting machine will have high speed and top precision cutting performance.

- USB Memory is duty for the NC program input and output
- Auto Run Model /Test Model/Back Run/Nesting
- Power-off protection Cutting Precision **0.3MM**
- Scale Change ● NC Code Edit ● Kerf Compensation
- Auto Position ● Mirror Image
- Cutting Oxygen (Gas) or Arc (Plasma) ON/OFF Function
- Motor-driven Torch instead of the manual operation

Available Cutting Width Standard :
1,800mm (2,200mm)

Recomnmended Cutting Width : 1, 800mm

Available Cutting Length Standard :
2,500mm

(Add 500mm for one unit, max as 15,000mm)

Voyager

Servo / Step motor Optional !!

Portable CNC Cutting Machine

High Speed Cutting, Without Any Vibration, Military Quality

Excellent Balanced Design, Melts with art and mechanics together.

The Structure of Machine is Optimized Totally !!

For making our Machine has a much better cutting performance , we process a series of optimization for the machine body and important parts ,we focus on all the details which influence the machine cutting edge : the rack , the pinion, the motor,the center of balance , the CNC system, the driving mode,the strength , the irregularity of the rail and the rack ,and so on , we do our effort to supply the fine and cool machine for our customers .

Max Efficient Cutting Area

Width 2,000mm, Length 15,000 mm .Standard efficient cutting area : 1,500mmX3000mm.

Motor ON/OFF Button

One-touch key make the machine easy to move! a proper key design , to avoid the control driver to burn during moving by hand.

Rack Updating

Instead of the small little rack , Now 15X15X505.5 rack for ArcBro Voyager, Duty 100% and enduring.

Servo or Step Motor Optional

The excellent Servo motor system and Step motor optional, The machine work more stable, makes your work more efficient and best

Advanced Frame

Extra Strong Rail Fix

Advanced Guiding Rail

Precision Linear Rail System

There are some accessories optional, we make a package cutting solution for you.

Friendly Water Table

ArcBro Water Table Movable, Detachable, Adjustable, Durable

ARC BRO New THC

Heavy Duty Oxy Fuel Torch

If you want to cut steel more than 150mm ,pls choose this torch with package .

Air Pollution Control System

Configuration

Voltage	AC110/220V 50/60HZ	Screen Size	7" LCD	Cut Model	Gas/Plasma (Optional)
Power	250W	Weight	110kg (standard package)	Auto Torch(option)	I : motor by hand device II : auto motor device
